

PHYS 2401: Thermal Physics – Fall 2023

<p style="text-align: center;">Professor Dr. Seyda Ipek (pronounced Shae-da E-peck) 3348 HP, Seyda.Ipek@carleton.ca Pronouns: she/her Student hours: Thursdays 10:00-11:00 or by appointment</p>	<p style="text-align: center;">Teaching Assistants Tammi Chowdhury TammiChowdhury@email.carleton.ca</p>
---	---

Class website: Brightspace

Book: *Concepts in Thermal Physics*, Second Edition, Blundell and Blundell, Oxford University Press

Topics: Temperature and thermodynamic equilibrium. Work, internal energy and heat; first law. Kinetic theory of gases. Basic probability theory. Microscopic states and entropy. Absolute temperature, reversibility and the second law of thermodynamics. Thermodynamic processes and applications.

Prerequisite knowledge and skills:

- Basic statistical analysis, e.g. finding the mean and statistical deviation of a data set. Familiarity with distribution functions such as Gaussian and binomial distribution.
- Working with multivariable functions, logarithms and exponentials. Taylor expansion.
- Integration and differentiation. Minimizing a function.
- Classical mechanics concepts like force, pressure, energy, work.

Course Assessment

- **Homework (30%)** There will be weekly problem sets. Lowest-grade homework is dropped. Late homework is not accepted. You need to turn in at least 60% of the assignments to get a grade.
- **Project (15%)** There will be a written project which involves in-depth calculations and some numerical analysis, due the last day of classes. See the class website for more details.
- **Midterm (20%)** There will be one midterm during class time. If you miss the midterm, your final exam will count 55% towards your final grade.
- **Final (35%)** The final exam will be given during the finals week.

Learning Objectives

- Identify whether to approach a situation from a microscopic or macroscopic perspective
- Given a real system, be able to simplify and model that system
- Predict thermodynamic properties of a system
- Communicate, verbally and in writing, thermodynamic properties found in a lab or natural setting.
- Follow current research in fields where thermal physics plays a key role.

Tentative Schedule – PHYS 2401 – Fall 2023

Week 1	Sep 6, Wed Sep 8, Fri	Welcome! Part I
Week 2	Sep 13, Wed Sep 15, Fri: HW1 due	Part I
Week 3	Sep 20, Wed Sep 22, Fri: HW2 due <i>Sept 19: Last day to change courses or sections (including auditing) for fall term.</i>	Part I-II
Week 4	Sep 27, Wed Sep 29, Fri: HW3 due, <i>Sep 30: Last day to withdraw from fall term and fall/winter courses with a full fee adjustment.</i>	Part II
Week 5	Oct 4, Wed Oct 6, Fri: HW4 due Project selection finalized <i>Oct 6: Dec examination schedule available online.</i>	Part II
Week 6	Oct 11, Wed Oct 13, Fri: HW5 due	Part III
Week 7	Oct 18, Wed Oct 20, Fri	Part IV
Week X	Oct 25, Wed: Reading week, <u>no class</u> Oct 27, Fri: Reading week, <u>no class</u>	<i>Have a nice break!</i>
Week 8	Nov 1, Wed: Midterm Nov 3, Fri: Project check-in	Midterm Part IV
Week 9	Nov 8, Wed Nov 10, Fri: HW6 due	Part IV
Week 10	Nov 15, Wed Nov 17, Fri: Project first draft <i>Nov 15: Last day for academic withdrawal</i> <i>Nov 15: Last day to request Formal Examination Accommodation Forms for December examinations to the PMC</i>	Part V
Week 11	Nov 22, Wed Nov 24, Fri: HW7 due	Part V
Week 12	Nov 29, Wed Dec 1, Fri: HW8 due	Part VI
Week 13	Dec 6, Wed Dec 8, Fri: No class, Project due at the end of day	Review/Wrap up
Week 14-15	Final exam	<i>Good luck!</i>

See the academic calendar for other important deadlines: <https://calendar.carleton.ca/academicyear/>

Class Code Of Conduct

My goal is to make each and everyone of you feel welcome, not only in my classroom but also in the field of physics. I expect you to behave respectfully and collegiately towards your peers, your TA and me. You should expect the same from me. If you think you are not being welcome or respected in the class, please contact me. If you have problems that are interfering with your learning, please contact me. I might not have all the answers, but I can point you in the right direction. If there is an issue about which you don't feel comfortable contacting me directly, please seek out department and/or campus resources.

Some of the behavior I expect in this class are:

- Academic honesty. The work you turn in must be yours. You are encouraged to work in groups but you cannot copy someone else's work, including answers found on the internet and solution manuals. You cannot give your work to someone else to be copied.
- Be on time with assignments. You should turn in your homework by the due date. Late homework will not be accepted. Exams will start and end on the allotted time. Graded assignments and exams, together with comments on your work, will be returned within a week.
- Respecting the class time. You should be on time to class and refrain from behavior that distracts you or others from learning. This includes, for example, talking to others and using social media during the class.
- Engagement with the class material. You are encouraged to interject during class to ask questions. At the same time, please be mindful of the class time and your classmates' needs. Remember that you can use the office hours to ask more questions.
- Respecting your classmates and the professor. You should be respectful of your classmates and your instructor, during and outside of the class. For example, if you know their preferred pronouns and/or chosen names, you should use them. You should respect their privacy and personal space. Harassment, bullying and demeaning behavior of any degree will not be tolerated. You are not allowed to record my class partially or in full in any form.
- Addressing me and each other. My name is pronounced Shae-duh E-peck. Please correct me if I pronounce your name wrong. You can address me as Dr. Ipek or Professor Ipek. You can also call me "Seyda Hocam", if you feel comfortable using this Turkish honorific. My preferred pronouns are she/her. You can put your preferred name/pronouns in your Brightspace profile, or talk to me if I am getting them wrong. If you know a classmate's chosen name/pronoun, be thoughtful about using them consistently.
- Be understanding. Show empathy towards others and be kind to yourself as well as those around you. Give positive feedback when you can, be constructive in your criticism.
- Communications. Questions about course material will be answered during the office hours. If you have other questions about the class, first make sure they are not answered through the syllabus, this webpage or by asking a classmate. If you *have to* email me, use your Carleton email address and make sure your email 1- has an informative subject line including the course code, 2- articulates your question or problem well, 3- has a closing statement such as *Sincerely, Kind Regards* etc. and 4- has your name at the end.

Academic Integrity

As scholars, you are expected to adhere to academic integrity. Academic misconduct is considered a very serious offense at Carleton University. Academic misconduct offenses include, but are not limited to, copying of others' work (plagiarism) and not abiding by exam rules.

Make yourselves familiar with the Carleton University Academic Integrity Policy. You can also refer to the [Faculty of Science Academic Integrity](#) webpage for information. Remember:

"Students are expected to familiarize themselves with this policy and to uphold the principles set out herein. It should further be noted that claiming ignorance of or confusion about the academic integrity standards as described in the Policy does not excuse a student from responsibility for violations of those standards."

All violations of the Academic Integrity Policy will be reported to the Dean of Faculty of Science with supporting documentation. After reporting by the faculty, the following steps are followed, as summarized by the [Registrar's Office](#):

1. Faculty Dean reviews documentation
2. Student is contacted by email and letter
3. Meeting with student, Dean and Advisor
4. Dean informs student of decision
5. Student has the right to appeal the decision

Academic Accommodations

Pregnancy and Religious Obligations: Write to me with any requests for academic accommodation due to pregnancy or religious obligations during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details visit the Equity Services website: <https://carleton.ca/equity/>

Students with Disabilities: The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities, psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder, Autism Spectrum Disorders, chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made.

Addressing Human Rights Concerns: The University and all members of the University community share responsibility for ensuring that the University's educational, work and living environments are free from discrimination and harassment. Should you have concerns about harassment or discrimination relating to your age, ancestry, citizenship, colour, creed (religion), disability, ethnic origin, family status, gender expression, gender identity, marital status, place of origin, race, sex (including pregnancy), or sexual orientation, please contact the [Department of Equity and Inclusive Communities](#) at equity@carleton.ca.

Survivors of Sexual Violence: As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and where survivors are supported through academic accommodations as per Carleton's Sexual Violence Policy. For

more information about the services available at the university and to obtain information about sexual violence and/or support, visit: <https://carleton.ca/sexual-violence-support/>

Accommodation for Student Activities: Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation must be provided to students who compete or perform at the national or international level. Please contact me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, see the [Senate Policy on Accommodation for Student Activities](#).
