Footnotes:

- a) Does not include applicants who do not get past the pre-screen stage, which excludes for example those without a self-reported physics background and international students with inadequate grades.
- b) Students with thesis oral in early January are deemed to have completed in the fall term of the previous year.
- c) Students who fast track from MSc to PhD are included in this total and in applicants for PhD.
- d) Further study for a PhD means they did a PDF/RA
- e) Teacher at a college
- f) This graduate worked briefly in industry then moved to government.
- g) Prior to CAMPEP accreditation in 2010 we did not tally numbers of applicants, offers, publications, and presentations.
