

Clarke Symposium held to honour the 15th Anniversary of the OMPI

Friday, November 5, 2004

A Symposium was held the afternoon of Friday 2004 November 5 to celebrate the 15th anniversary of the Ottawa Medical Physics Institute. The local speakers were Rob deKemp, Robert Clarke, Peter Raaphorst, David Rogers, and Ian Cameron. Charlie Ma, of Fox Chase Cancer Center in Philadelphia, gave the keynote address. At the close of the symposium, Dean of Science Jean-Guy Godin introduced the *Robert L. Clarke Graduate Scholarship in Medical Physics*, whose endowment fundraising is already underway and has made a healthy start. A reception followed. Members of OMPI, of the Physics Department, and friends and guests reconvened in the evening for dinner at The Courtyard restaurant downtown. [Details](#)

The Robert L. Clarke Graduate Scholarship in Medical Physics

Wednesday, September 1, 2004

The campaign to put in place the endowment for the first graduate scholarship in the Department of Physics was launched in September 2004. The campaign has concentrated first on the local community of OMPI members and Physics faculty members. An impressive start has been made. Details on the scholarship: [Department of Physics page for the Clarke scholarship](#)
