- introduction to particle physics
- relativistic kinematics
- decay rate and scattering cross-section
- Dirac equation
- symmetries
- QED
- QCD
- weak interactions
- electroweak model

Course Evaluation

The final grades will be determined from the better of

A) 50% assignments
 20% midterm
 30% final exam

or

B) 50% assignments
 50% final exam

There will be approximately ~6 assignments with approximately ~2 weeks to complete each assignment. In exceptional circumstances, an assignment might be accepted late if sufficient documented reasons are provided. Otherwise, late assignments are not graded. Assignment solutions must be posted as .pdf files to Brightspace, but can be scanned versions of hand-written solutions.

The midterm must be written to successfully pass the course even if the alternate grading scheme provides a better final grade. The midterm is scheduled for March 2nd.

The final exam must be written to pass the course even if a passing grade is achieved without it.

The grading scheme that provides the highest grade will be used for each student.

The final exam will occur during the final exam period as scheduled by the university.

Special Information Regarding COVID-19

It is important to remember that COVID is still present in Ottawa. The situation can change at any time and the risks of new variants and outbreaks are very real. There are [a number of actions you can take](#) to lower your risk and the risk you pose to those around you including being vaccinated, wearing a mask, staying home when you're sick, washing your hands and maintaining proper respiratory and cough etiquette.

Feeling sick? Remaining vigilant and not attending work or school when sick or with symptoms is critically important. If you feel ill or exhibit COVID-19 symptoms do not come to class or campus. If you feel ill or exhibit symptoms while on campus or in class, please leave campus immediately. In all situations, you must follow Carleton's [symptom reporting protocols](#).

Masks: Carleton has paused the [COVID-19 Mask Policy](#), but continues to strongly recommend masking when indoors, particularly if physical distancing cannot be maintained. It may become necessary to quickly reinstate the mask requirement if pandemic circumstances were to change.

Vaccines: While proof of vaccination is no longer required as of May 1 to attend campus or in-person activity, it may become necessary for the University to bring back proof of vaccination requirements on short notice if the situation and public health advice changes. Students are strongly encouraged to get a full course of vaccination, including booster doses as soon as they are eligible, and submit their booster dose information in [cuScreen](#) as soon as possible. Please note that Carleton cannot guarantee that it will be able to offer virtual or hybrid learning options for those who are unable to attend the campus.

All members of the Carleton community are required to follow requirements and guidelines regarding health and safety which may change from time to time. For the most recent information about Carleton's COVID-19 response and health and safety requirements please see

the [University's COVID-19 website](#) and review the [Frequently Asked Questions \(FAQs\)](#). If you have additional questions after reviewing, please contact covidinfo@carleton.ca.

Note About COVID-19 & Mental Health

The global pandemic has led to extra stress and uncertainty for everyone, and while we may all be experiencing some of the same challenges, this does not mean that we are all in the same situation. If you are struggling, please do not hesitate to reach out. I am happy to listen, and/or direct you to resources that might help. If you are finding the material in this course difficult or are encountering other challenges, the most important step you can take is to arrange to meet with me. Also remember that Carleton offers an array of mental health and well-being resources, which can be found [here](#).
