

**Carleton University  
Department of Physics**

**PHYS 1901  
Planetary Astronomy  
Section V**

**Summer 2023**

**Course Outline**

This course will be offered online for the Summer 2023 term. All course material will be posted on Brightspace.

Instructor: Razieh Enjilela  
Email: [Razieh.Enjilela@carleton.ca](mailto:Razieh.Enjilela@carleton.ca)

Office hours: Monday and Wednesday 12:30 p.m. – 1:30 p.m. or by appointment.  
Office hours will take place using the Zoom link which is built into Brightspace.

Teaching Assistants: TBA

Textbook: *Astronomy Today*, 9th Edition by Eric Chaisson and Steve McMillan,  
Publisher: Pearson.

**Please note that Faculty of Science students may only take this course as a free elective.**

Welcome to your first (or second) course in astronomy! I hope that you have an enjoyable summer session studying at Carleton. This course is aimed at general interest students who have had minimal exposure to science or mathematics. As such, this course will rely mostly on descriptive explanations employing diagrams and pictures to help build a heuristic understanding of the cosmos. However, studying astronomy also requires a basic understanding of the laws of physics, which requires some use of high school level mathematics.

PHYS 1901 is one of two introductory courses on astronomy offered by Carleton (the other being PHYS 1902: *From Our Stars to the Cosmos*). PHYS 1901 focuses on the solar system and planetary phenomena. By the end of this course you will understand the motions of the sky, how telescopes work, the characteristics of the planets, how the solar system formed, and the methods astronomers and scientists use to learn about our neighborhood in the Universe. I hope that you will gain a deeper appreciation of science and astronomy, and have fun learning!

## **1. Land Acknowledgment**

We recognize the Algonquin peoples as the traditional custodians of the land in which the campus is located, and where the class is taught. You are invited to learn more, reflect on how you can support anti-racism and decolonization, and take action. <https://carleton.ca/indigenous/>

## **2. Equity Diversity and Inclusion Statement**

We are committed to creating a community that is as inclusive and diverse as the people that our professions serve. All students in the PHYS1902 class need to have a fundamental understanding of anti-racism, decolonization, Indigenization, and EDI. EDI plays a significant role in what we do in our class and in our day-to-day lives. An environment where we understand, and respect EDI is essential for each individual to fulfill their potential.

## **3. Calendar Description**

Description of the known stellar, galactic and extra-galactic systems together with the instruments used to study them. Modern ideas concerning the structure, origin and evolution of our own planet. Formation of the Moon-Earth system. Study of the planets in our solar system. Precludes additional credit for [PHYS 2203](#).

## **4. Carleton University OnLine (CUOL)**

**CUOL website:** <https://carleton.ca/online/>

**CUOL Student Centre:** D299 Loeb, 613-520-4055

Email: [cuol@carleton.ca](mailto:cuol@carleton.ca) (general information)

PHYS 1901 is offered through Carleton University OnLine (CUOL). All lectures and course materials will be available through Brightspace system and you will have access to them at any time during the semester.

## **5. Course Modality**

PHYS 1901 is offered as Asynchronous Course. This course is an online course where the instructor and students share information, ideas, and learning experiences in a virtual course space. Asynchronous courses do not have required live, scheduled meetings online. However, students are expected to remain up to date with the deadlines and due dates provided by the instructor. These courses require high-speed Internet access and a computer.

## **6. Textbook**

The required textbook is *Astronomy Today*, 9th Edition by Eric Chaisson and Steve McMillan, Publisher: Pearson.

## **7. Course Components and Marking Scheme**

### **a. Marks and passing conditions**

The marking scheme is as follows:

Assignments (4 × 10 %)	40 %
Midterm Exam	15 %
Final Exam	35 %
Class activity	10%
<hr/>	
Course Total	100 %

In order to pass the course, your overall grade must be at least 50 %. **In addition, you must submit at least 3 assignments to pass the course.** There would be **one mandatory class activity** that counts 10% of your final grade and one additional class activity that you are not required to participate in. The second class activity is not mandatory. A bonus mark will be given for second-class activity.

As with any university-level course, it is imperative that you view all lectures if you wish to succeed. The course assessment consists of four assignments, a midterm exam, and a final exam. In this section, I explain how each assessment component factors into your final grade.

### **b. Lectures**

The lectures will be available online through Brightspace. Each week, 4 additional lecture recordings will become available; 2 recordings will be posted on Monday and 2 recordings will be posted on Wednesday at 12:00 am.

Refer to Section 6 of this course outline for a detailed schedule of the delivery of the material, including the content and textbook chapters covered every week. The textbook is an important tool to learn scientific material. The book identifies the learning objectives, explains the fundamental concepts, and contains several review problems.

### **c. Assignments (40%)**

There will be four written assignments to be completed outside of class. I encourage collaboration with your colleagues on the assignments, but I stress that collaboration does not mean copying. Please familiarize yourself with Carleton University's policies regarding plagiarism and academic honesty (you can find these policies in the Undergraduate Calendar and in Section 6 of this course outline). I hope that you will find the assignments thought provoking

and fun. Don't worry if at times you get stuck – I will be more than willing to help. Remember, the process of getting unstuck is called learning.

The assignment schedule is as follows:

<b>7</b>	<b>Date Handed Out</b>	<b>Deadline</b>
1	Wednesday, May 10	Thursday, May 18
2	Friday, May 19	Sunday, May 28
3	Monday, May 29	Tuesday, June 6
4	Wednesday, June 7	Thursday, June 15

### **Assignment Submission Policy**

- You must submit your assignments electronically in Brightspace, by uploading a file in PDF or Microsoft Word format. **Do not email your assignment to me or the TA.**
- **Assignments must be submitted no later than 11:59 p.m. Eastern Time on the above due dates.**
- **Late assignments are not accepted under any circumstances and I will assign a grade of zero.** Only under the most serious of circumstances will I exempt a student from an assignment, in which case the remainder of the student's assessment will be reweighted.

#### d. Midterm Exam (15%)

The midterm exam will be held on **Saturday, May 27, 2023 at 6:00 p.m. – 7:30 p.m. Eastern Time**, and will take place online through Brightspace. The exam will be open-book and consist of multiple-choice questions. If you have a legitimate reason for missing the midterm exam, a deferred midterm exam may be scheduled for you. More details about the midterm exam will be announced later.

#### e. Final Exam (35%)

The final examination will be held during the Early Summer exam period, June 19 – 25, 2023, and will take place online through Brightspace. The date and time of the exam are scheduled by the central university scheduling service and will be announced part of the way through the term.

The final exam will be cumulative, open-book, and consist of multiple-choice questions. More details about the exam will be announced at a later date.

f. Class activities (10%)

There will be 2-3 class activities to be completed outside of the class. I strongly encourage you to do these fun class activities.

g. Deferred Exams

If you miss the Final Exam for a valid reason such as illness, you may apply for a Deferred Exam through the registrar's office. A Deferred Exam replaces only the Final Exam portion of your grade. Deferred Exams for the Early Summer term are scheduled during July 21 – 23, 2023.

Students with significant incomplete term work, such that a failing grade would be awarded regardless of the final exam score, will not be permitted to write a deferred exam.

**8. Lecture Schedule and Important Dates**

Date	Lecture	Topics	Textbook Sections
May 8	1	Course Introduction Our Place in Space	1.1
	2	Scientific Notation, Astronomical Measurement The Scientific Method	1.1 Appendices 1, 2, 1.2
May 10	3	The Celestial Sphere, Earth's Orbital Motion	1.2 – 1.4
	4	Motion of the Moon, The Measurement of Distance	1.4 – 1.5
May 15	5	The Copernican Revolution, Planetary Motion	1.6 2.1 – 2.4
	6	Laws of Motion Newtonian Mechanics	2.5 – 2.7
May 17	7	Light and Radiation Electromagnetic Spectrum	2.8 3.1 – 3.2
	8	Radiation Laws Spectroscopy	3.3 – 3.5 4.1
May 22	9	Spectroscopy Telescopes	4.2 – 4.5
	10	Telescopes *Course Review, Part 1	5.1 – 5.4 1-5
May 24	11	The Solar System	6.1 – 6.2
	12	The Solar System and its Formation	6.3 – 6.7
May 29	13	The Earth	7.1 – 7.5

	14	The Moon	7.6, 8.1 – 8.9
May 31	15	Mercury Venus	8.1 – 8.9 9.1 – 9.4
	16	Venus Mars	9.5 – 9.6 10.1 – 10.5
June 5	17	Mars Jupiter	10.6 – 10.8 11.1 – 11.2
	18	Jupiter and its Moons	11.3 – 11.6
June 7	19	Saturn	12.1 – 12.5
	20	Uranus and Neptune	13.1 – 13.6
June 12	21	Solar System Debris	14.1 – 14.4
	22	Exoplanets	15.1 – 15.5
June 14	23	The Sun	16.1 – 16.7
	-	*Course Review, Part 2	7-16
June 16	-	Last day of Early Summer term classes	-
June 19– 25	-	Final examinations in Early Summer term courses may be held. Examinations are normally held all seven days of the week.	-
July 21 – 23	-	Early Summer term deferred examinations will be held.	-

\* Please note that there would not be lectures recordings for the “course review” part 1 and part 2. Instead, there would be two live online classes. Students can attend to discuss and kind of review all the course materials. More details and dates will be announced later.

## **9. University Policies**

### **Grade Definition:**

In accordance with the Carleton University Undergraduate Calendar Regulations, the letter grades assigned in this course will have the following percentage equivalents:

A+ = 90 – 100	B+ = 77 – 79	C+ = 67 – 69	D+ = 57 – 59
A = 85 – 89	B = 73 – 76	C = 63 – 66	D = 53 – 56
A- = 80 – 84	B- = 70 – 72	C- = 60 – 62	D- = 50 – 52
F = <50			

WDN = Withdrawn from the course

ABS = Student absent from final exam

DEF = Deferred (see Section 5f above)

FND = Failed, no Deferred (student could not pass even with 100% on final exam)

### **Academic Regulations, Accommodations, Plagiarism, etc.:**

University rules regarding registration, withdrawal, appealing marks, and most anything else you might need to know can be found on the university's website, here:

<http://calendar.carleton.ca/undergrad/regulations/academicregulationsoftheuniversity/>

### **Academic Accommodations for Students with Disabilities:**

The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at **613-520-6608** or **pmc@carleton.ca** for a formal evaluation. For more information visit: <https://carleton.ca/pmc/>.

If you are already registered with the PMC, contact your PMC coordinator to send your ***Letter of Accommodation*** at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (*if applicable*).

\*The deadlines for contacting the Paul Menton Centre regarding accommodation for final exams for the Early Summer exam period is **May 26, 2023** and for the Late Summer exam period is **July 28, 2023**.

### **For Religious Obligations:**

Students requesting academic accommodations on the basis of religious obligation should make a formal, written request to their instructors for alternate dates and/or means of satisfying academic requirements. Such requests should be made during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist, but no later than two weeks before the compulsory event.

Accommodation is to be worked out directly and on an individual basis between the student and the instructor(s) involved. Instructors will make accommodations in a way that avoids academic disadvantage to the student.

Students or instructors who have questions or want to confirm accommodation eligibility of a religious event or practice may refer to the Equity Services website for a list of holy days and Carleton's Academic Accommodation policies, or may contact an Equity Services Advisor in the Equity Services Department for assistance. <https://carleton.ca/equity/focus/discrimination-harassment/religious-spiritual-observances/>

### **For Pregnancy:**

Pregnant students requiring academic accommodations are encouraged to contact an Equity Advisor in Equity Services to complete a letter of accommodation. The student must then make an appointment to discuss her needs with the instructor at least two weeks prior to the first academic event in which it is anticipated the accommodation will be required.

<https://carleton.ca/equity/contact/form-pregnancy-accommodation/>

## **Plagiarism:**

Plagiarism is the passing off of someone else's work as your own and is a serious academic offence. For the details of what constitutes plagiarism, the potential penalties and the procedures refer to the section on Instructional Offences in the Undergraduate Calendar.

### **What are the Penalties for Plagiarism?**

A student found to have plagiarized an assignment may be subject to one of several penalties including: expulsion; suspension from all studies at Carleton; suspension from full-time studies; and/or a reprimand; a refusal of permission to continue or to register in a specific degree program; academic probation; award of an FNS, Fail, or an ABS.

### **What are the Procedures?**

1. All allegations of plagiarism are reported to the Dean of the Faculty of Science. Documentation is prepared by instructors and/or departmental chairs.
2. The Dean writes to the student and the University Ombudsperson about the alleged plagiarism.
3. The Dean reviews the allegation. If it is not resolved at this level then it is referred to a tribunal appointed by the Senate.

Students are expected to familiarize themselves with and follow the Carleton University Student Academic Integrity Policy (see <https://carleton.ca/registrar/academic-integrity/>). The Policy is strictly enforced and is binding on all students. Plagiarism and cheating – presenting another's ideas, arguments, words or images as your own, using unauthorized material, misrepresentation, fabricating or misrepresenting research data, unauthorized co-operation or collaboration or completing work for another student – weaken the quality of the undergraduate degree. Academic dishonesty in any form will not be tolerated. Students who infringe the Policy may be subject to one of several penalties including: expulsion; suspension from all studies at Carleton; suspension from full-time studies; a refusal of permission to continue or to register in a specific degree program; academic probation; or a grade of Failure in the course.

For any offences committed after January 6, 2020, minimum penalties for violations of the Academic Integrity Policy will be applied as follows:

- First offence, first-year students (< 4.0 credits completed): No credit for the assignment or activity in question, or a final grade reduction of one full letter grade (e.g., A- becomes B-, if reduction results in an F, so be it), whichever penalty is more severe.
- First offence (everyone else): F in the course
- Second offence: One-year suspension from program
- Third offence: Expulsion from the University

Note: these are minimum penalties. More severe penalties will be applied in cases of egregious offences (e.g., a first-year student accessing Brightspace from their phone during an exam will be given an F in the course; bribing a faculty member or a TA for a better grade would be grounds for suspension, etc.)

If you are unsure of the expectations regarding academic integrity (how to use and cite references, how much collaboration with lab- or classmates is appropriate), ASK your instructor or your TA. **It is NEVER okay to upload assignments to online sites such as Chegg, CourseHero, OneClass, etc.**

Failure to inform yourself of the expectations regarding academic integrity is not a valid excuse for violations of the policy.

#### **Assistance for Students:**

- Academic and Career Development Services: <https://carleton.ca/career/>
- Writing Services: <http://www.carleton.ca/csas/writing-services/>
- Peer Assisted Study Sessions (PASS): <https://carleton.ca/csas/group-support/pass/>
- Math Tutorial Centre: <https://carleton.ca/math/math-tutorial-centre/>
- Science Student Success Centre: <https://sssc.carleton.ca/>

#### **Important Information:**

- Student or professor materials created for this course (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the author(s). They are intended for personal use and may not be reproduced or redistributed without prior written consent of the author(s).
- Students must always retain a hard copy of all work that is submitted.
- Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by the instructor may be subject to revision. No grades are final until they have been approved by the Dean.
- Carleton University is committed to protecting the privacy of those who study or work here (currently and formerly). To that end, Carleton's Privacy Office seeks to encourage the implementation of the privacy provisions of Ontario's *Freedom of Information and Protection of Privacy Act* (FIPPA) within the university.
- In accordance with FIPPA, please ensure all communication with staff/faculty is via your Carleton email account. To get your Carleton Email you will need to activate your MyCarletonOne account through Carleton Central. Once you have activated your MyCarletonOne account, log into the MyCarleton Portal.

## **10. Important Dates**

### **Summer Sessions:**

- **Early Summer:** May 4, 2023 to June 16, 2023
- **Late Summer:** July 4, 2023 to August 16, 2023
- **Full Summer:** May 4, 2023 to August 16, 2023

<b>May 1</b>	Last day for receipt of applications for undergraduate internal degree transfers to allow for registration for the summer term.
<b>May 4</b>	<b>Early</b> summer and <b>full</b> summer courses begin.
<b>May 10</b>	Last day for registration and course changes (including auditing) for <b>early</b> summer courses.
<b>May 17</b>	Last day for registration and course changes (including auditing) for <b>full</b> summer courses.
<b>May 19 – 31</b>	Fall/Winter and winter term deferred final examinations will be held.
<b>May 22</b>	Statutory holiday. University closed.
<b>May 26</b>	Last day to request Formal Examination Accommodation for <b>early</b> summer examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfill accommodation requests received after the specified deadlines.
<b>June 9</b>	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade for <b>early</b> summer courses before the official examination period (see <a href="#">Examination Regulations</a> in the Academic Regulations of the University section of the Undergraduate Calendar).
<b>June 16</b>	Last day of <b>early</b> summer classes (NOTE: Full summer classes resume July 4). Last day for academic withdrawal from <b>early</b> summer courses. Last day for handing in term assignments, subject to any earlier course deadline.
<b>June 17 – 18</b>	No classes or examinations take place.
<b>June 19 – 25</b>	Early summer final examinations and mid-term examinations in full summer courses may be held. Examinations are normally held all seven days of the week.
<b>July 3</b>	Statutory holiday (July 1 observed). University closed.
<b>July 4</b>	<b>Late</b> summer courses begin. <b>Full</b> summer courses resume.

<b>July 10</b>	Last day for registration and course changes (including auditing) for <b>late</b> summer courses.
<b>July 17</b>	Last day to withdraw from late summer courses with a full fee adjustment.
<b>July 21 – 23</b>	<b>Early</b> summer term deferred final examinations to be held.
<b>July 28</b>	Last day to request Formal Examination Accommodation for August examinations to the Paul Mention Centre for Students with Disabilities. Note that it may not be possible to fulfill accommodation requests received after the specified deadlines.
<b>August 7</b>	Civic holiday. University closed.
<b>August 9</b>	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade for <b>late</b> summer and <b>full</b> summer courses before the official examination period (see <a href="#">Examination Regulations</a> in the Academic Regulations of the University section of the Undergraduate Calendar).
<b>August 16</b>	Last day of <b>late</b> summer and <b>full</b> summer classes. Last day for academic withdrawal from <b>late</b> summer and <b>full</b> summer courses and any other courses that end this term. Last day for handing in term assignments, subject to any earlier course deadline.
<b>August 17 – 18</b>	No classes or examinations take place.
<b>August 19 – 25</b>	Final examinations in <b>late</b> summer and <b>full</b> summer courses may be held. Examinations are normally held all seven days of the week.
<b>August 25</b>	All take home examinations are due on this day, with the exception of those conforming to the <a href="#">Examinations regulations</a> in the Academic Regulations of the University section of the Undergraduate Calendar/General Regulations of the Graduate Calendar.
<b>September 22 – 24</b>	<b>Late</b> summer and <b>full</b> summer term deferred final examinations will be held.
