OVERVIEW

This course is intended for students with little or no background in Science. It introduces physics through a set of modules that closely connected to our everyday life and future.

This course is only available on-line via Brightspace.

Please note that Faculty of Science students may only take this course as a free elective.

COURSE LEVEL LEARNING OUTCOMES

By the end of the course, students should be able to:

1. Explain physics related phenomenon using basic physics principles and terminology
2. Perform basic calculation/estimations to solve simple physics related problems
3. Make correct judgement/decisions on physics related issues in their daily life based on basic physics principles
TEXTBOOK

The optional text-book for the course is “Physics Beyond the Comfort Zone” by Peter Watson. This textbook has a number of relevant sections relating to material for this course but does not cover some areas. The lectures and supplementary materials are intended to cover the course with this textbook as a useful but optional additional aid. This is an e-text book available from Amazon or iBooks for $9.99. If you have any difficulties purchasing the textbook, please contact me.

CONTENT

The following thematic modules will be covered in this course. Each module will help you answer a series of questions listed below.

1. Sound and Music
   In many ways, music might be viewed as one of the most human of inventions. What is the nature of sound and what are the relationships between pitch, loudness, musical scales and the fundamental properties of sounds? How are sounds generated, from different types of instruments, that create a musical performance?

2. Light and Colour
   What is light exactly? What is radiation and electromagnetic wave? How do eyes and lenses work? How do we see colours? How do we communicate with EM waves?

3. Cell Phone
   It has become commonplace, almost anywhere one travels in the world, to see people using cell phones for conversations, texting, accessing the internet, listening to music, and taking photos. What are the physics principles behind the manufacture and operation of cell phones?

4. The Solar System and Beyond
   The nature of the universe beyond our planet has always fascinated humans. How do we use rockets to place satellites in orbit and send missions out into the solar system? What is the structure of our solar system…of our galaxy…of the universe?

5. Medical Physics
   Medical physics is about using physical approaches to diagnose and treat diseases. What is x-ray? How does it “see” though our body? What is MRI? Why doctors always order MRI instead of x-ray if you have a joint pain? How ultrasound scan works?

6. Recent Advances
   Some of the most interesting questions in science are being tackled by physicists around the world. What are dark matter and dark energy? What are gravitational waves? Why is discovery
of the Higgs particle important and what does it tell us? What are neutrinos and how do we observe them?

**MODULE COMPLETION DATES AND PHYSICS TOPICS COVERED**

<table>
<thead>
<tr>
<th>Thematic Modules</th>
<th>Expected completion dates of lecture videos</th>
<th>Physics topics Covered</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Sound and Music</td>
<td>July 6</td>
<td>Amplitude, velocity, wavelength, and frequency of sound waves, resonance, interference, harmonics, standing waves</td>
</tr>
<tr>
<td>2. Light and Colour</td>
<td>July 13</td>
<td>Radiation as wave, electromagnetic wave, optical lenses and its application, human eyes, wavelength and color, color perceptions, radio waves and communication.</td>
</tr>
<tr>
<td>3. Cell Phone</td>
<td>July 20</td>
<td>Semiconductors, diode and transistor, basic of logic gates and CPU, fabrication of integrated circuits, acceleration and accelerometer, rotation and gyroscope, light polarization and LCD screen.</td>
</tr>
<tr>
<td>4. Solar System and Beyond</td>
<td>July 27</td>
<td>Gravity, momentum, energy, circular motion, orbits, time dilation</td>
</tr>
<tr>
<td>6. Recent Advances</td>
<td>Aug 10</td>
<td>Neutrinos, Higgs particle, gravitational waves, dark energy and dark matter</td>
</tr>
</tbody>
</table>

Please note that All the lecture videos are interactive with questions to be answered during the lecture. **You must achieve 75% or higher from the interactive video** before you can move on to the next lecture. The **skipping forward** on the video navigation bar is **disabled** in the first watch. Once you completed the lecture, you can rewatch the videos without any limits.
EVALUATION

1. (50%) Module quizzes
   At the end of each thematic modules, there will be an online quiz of 15 multi-choice questions. **Quizzes will always open on Wednesday and must be completed before Tuesday midnight (11:59 pm).** Each quiz account for 8.3% of the final mark.

<table>
<thead>
<tr>
<th>Thematic Module</th>
<th>Module quiz due date</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Sound and Music</td>
<td>July. 12, 11:59 pm</td>
</tr>
<tr>
<td>2. Light and Colour</td>
<td>July. 19, 11:59 pm</td>
</tr>
<tr>
<td>3. Cell Phone</td>
<td>July. 26, 11:59 pm</td>
</tr>
<tr>
<td>4. Solar System and Beyond</td>
<td>Aug. 2, 11:59 pm</td>
</tr>
<tr>
<td>5. Medical Physics</td>
<td>Aug. 9, 11:59 pm</td>
</tr>
<tr>
<td>6. Recent Advances</td>
<td>Aug. 16, 11:59 pm</td>
</tr>
</tbody>
</table>

2. (30%) Two writing projects

Each thematic module has suggested essay topics and/or a lab you can perform using materials or devices that are available in your home.

You are required to write one essay and one lab report on two of the five topics of your choice. The lab must be chosen from the first two thematic Modules (Sound and Music or Light and Colour). The essay must be chosen from the four modules (Cell Phone, Medical Physics, Solar System and Beyond, or Recent Advances).

The due dates at listed in this table:

<table>
<thead>
<tr>
<th>Lab</th>
<th>Essay</th>
</tr>
</thead>
<tbody>
<tr>
<td>Must pick one of the two topics</td>
<td>Must pick one of the three topics</td>
</tr>
<tr>
<td>1. Sound and Music</td>
<td>3. Cell Phone</td>
</tr>
<tr>
<td>2. Light and Colour</td>
<td>4. Solar System and Beyond</td>
</tr>
<tr>
<td>1. Sound and Music</td>
<td>3. Cell Phone</td>
</tr>
<tr>
<td>2. Light and Colour</td>
<td>4. Solar System and Beyond</td>
</tr>
<tr>
<td>The Lab report is due on July 26, 11:59 pm</td>
<td>The Essay is due on Aug 16, 11:59 pm</td>
</tr>
<tr>
<td>3. Cell Phone</td>
<td>5. Medical Physics</td>
</tr>
<tr>
<td>4. Solar System and Beyond</td>
<td>6. Recent Advances</td>
</tr>
</tbody>
</table>
For the lab report, a write up template will be provided. The essay has to be **800-1000 words**. Both the essay and lab reports must be written using word processing software. **Hand written essays will NOT be accepted and will be given zero mark.** Essays or lab reports should be uploaded via Brightspace.

### 3. (20%) Final online quiz

During the final exam period, there will be an online quiz of multi-choice questions that covers all the content of the course.

### COPYING, PLAGIARISM AND OTHER FORMS OF CHEATING

The attention of all students is drawn to section E.12 of the Academic Regulations of the University: https://carleton.ca/registrar/academic-integrity/

Such offences will normally result in a mark of zero on the cheated work. In addition, a report will be sent to the Dean of the student's Faculty, for possible further disciplinary action.

### ACADEMIC ACCOMMODATIONS

**Requests for Academic Accommodation**

You may need special arrangements to meet your academic obligations during the term. For an accommodation request, the processes are as follows:

**Pregnancy obligation**

Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, visit the Equity Services website: carleton.ca/equity/wp-content/uploads/Student-Guide-to-Academic-Accommodation.pdf

**Religious obligation**

Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details, visit the Equity Services website: carleton.ca/equity/wp-content/uploads/Student-Guide-to-Academic-Accommodation.pdf

**Academic Accommodations for Students with Disabilities**

If you have a documented disability requiring academic accommodations in this course, please contact the Paul Menton Centre for Students with Disabilities (PMC) at 613-520-6608 or pmc@carleton.ca for a formal evaluation or contact your PMC coordinator to send your instructor your Letter of Accommodation at the beginning of the term. You must also contact the PMC no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with your instructor as soon as possible to ensure accommodation arrangements are made. carleton.ca/pmc

**Survivors of Sexual Violence**

As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and is survivors are supported through academic accommodations as per Carleton's Sexual Violence Policy. For more information about the services available
at the university and to obtain information about sexual violence and/or support, visit: carleton.ca/sexual-violence-support

**Accommodation for Student Activities**
Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation must be provided to students who compete or perform at the national or international level. Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist.

For more information on academic accommodation, please contact the departmental administrator or visit:
students.carleton.ca/course-outline

**Assistance for Students:**
Academic and Career Development Services: https://carleton.ca/career/for-facultystaff/how-can-you-support-career-development/
Writing Services: http://www.carleton.ca/csas/writing-services/
Peer Assisted Study Sessions (PASS): https://carleton.ca/csas/group-support/pass/
Math Tutorial Centre: https://carleton.ca/math/math-tutorial-centre/
Science Student Success Centre: https://sssc.carleton.ca/

**Important Information:**
- Student or professor materials created for this course (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the author(s). They are intended for personal use and may not be reproduced or redistributed without prior written consent of the author(s).

- Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by the instructor may be subject to revision. No grades are final until they have been approved by the Dean.

- Carleton University is committed to protecting the privacy of those who study or work here (currently and formerly). To that end, Carleton’s Privacy Office seeks to encourage the implementation of the privacy provisions of Ontario’s *Freedom of Information and Protection of Privacy Act* (FIPPA) within the university.

- In accordance with FIPPA, please ensure all communication with staff/faculty is via your Carleton email account. To get your Carleton Email you will need to activate your MyCarletonOne account through Carleton Central. Once you have activated your MyCarletonOne account, log into the MyCarleton Portal.
Important Dates

Summer Sessions:

- **Early Summer**: May 4, 2023 to June 16, 2023
- **Late Summer**: July 4, 2023 to August 16, 2023
- **Full Summer**: May 4, 2023 to August 16, 2023

May 1
Last day for receipt of applications for undergraduate internal degree transfers to allow for registration for the summer term.

May 4
**Early** summer and **full** summer courses begin.

May 10
Last day for registration and course changes (including auditing) for **early** summer courses.

May 17
Last day for registration and course changes (including auditing) for **full** summer courses.

May 19 – 31
Fall/Winter and winter term deferred final examinations will be held.

May 22
Statutory holiday. University closed.

May 26
Last day to request Formal Examination Accommodation for **early** summer examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfill accommodation requests received after the specified deadlines.

June 9
Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade for **early** summer courses before the official examination period (see Examination Regulations in the Academic Regulations of the University section of the Undergraduate Calendar).

June 16
Last day of **early** summer classes (NOTE: Full summer classes resume July 4). Last day for academic withdrawal from **early** summer courses.
Last day for handing in term assignments, subject to any earlier course deadline.

June 17 – 18
No classes or examinations take place.

June 19 – 25
**Early** summer final examinations and mid-term examinations in **full** summer courses may be held. Examinations are normally held all seven days of the week.

July 3
Statutory holiday (July 1 observed). University closed.

July 4
**Late** summer courses begin.
**Full** summer courses resume.

July 10
Last day for registration and course changes (including auditing) for **late** summer courses.

July 17
Last day to withdraw from late summer courses with a full fee adjustment.

July 21 – 23
**Early** summer term deferred final examinations to be held.
July 28  Last day to request Formal Examination Accommodation for August examinations to the Paul Mention Centre for Students with Disabilities. Note that it may not be possible to fulfill accommodation requests received after the specified deadlines.

August 7  Civic holiday. University closed.

August 9  Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade for late summer and full summer courses before the official examination period (see Examination Regulations in the Academic Regulations of the University section of the Undergraduate Calendar).

August 16  Last day of late summer and full summer classes.  
Last day for academic withdrawal from late summer and full summer courses and any other courses that end this term.  
Last day for handing in term assignments, subject to any earlier course deadline.

August 17 – 18  No classes or examinations take place.

August 19 – 25  Final examinations in late summer and full summer courses may be held. Examinations are normally held all seven days of the week.

August 25  All take home examinations are due on this day, with the exception of those conforming to the Examinations regulations in the Academic Regulations of the University section of the Undergraduate Calendar/General Regulations of the Graduate Calendar.

September 22 – 24  Late summer and full summer term deferred final examinations will be held.
