Welcome to your first (or second) course in astronomy! I hope that you have an enjoyable fall session studying at Carleton. This course is aimed at general interest students who have had minimal exposure to science or mathematics. As such, this course will rely mostly on descriptive explanations employing diagrams and pictures to help build a heuristic understanding of the cosmos. However, studying astronomy also requires a basic understanding of the laws of physics, which requires some use of high school level mathematics.

PHYS 1901 is one of two introductory courses on astronomy offered by Carleton (the other being PHYS 1902: From Our Stars to the Cosmos). PHYS 1901 focuses on the solar system and planetary phenomena. By the end of this course you will understand the motions of the sky, how telescopes work, the characteristics of the planets, how the solar system formed, and the methods astronomers and scientists use to learn about our neighbourhood in the Universe. I hope that you will gain a deeper appreciation of science and astronomy, and have fun learning!
1. Land Acknowledgment

Description We recognize the Algonquin peoples as the traditional custodians of the land in which the campus is located, and where the class is taught. You are invited to learn more, reflect on how you can support anti-racism and decolonization, and take action. https://carleton.ca/indigenous/

2. Equity Diversity and Inclusion Statement

We are committed to creating a community that is as inclusive and diverse as the people that our professions serve. All students in the PHYS1901 class need to have a fundamental understanding of anti-racism, decolonization, Indigenization, and EDI. EDI plays a significant role in what we do in our class and in our day-to-day lives. An environment where we understand, and respect EDI is essential for each individual to fulfill their potential.

3. Calendar Description

Description of the known stellar, galactic and extra-galactic systems together with the instruments used to study them. Modern ideas concerning the structure, origin and evolution of our own planet. Formation of the Moon-Earth system. Study of the planets in our solar system. Precludes additional credit for PHYS 2203.

4. Carleton University OnLine (CUOL)

CUOL website: https://carleton.ca/online/
CUOL Student Centre: D299 Loeb, 613-520-4055
Email: cuol@carleton.ca (general information)

PHYS 1901 is offered through Carleton University OnLine (CUOL). All lectures and course materials will be available through Brightspace system and you will have access to them at any time during the semester.

5. Course Modality

PHYS 1901 is offered as Asynchronous Course. This course is an online course where the instructor and students share information, ideas, and learning experiences in a virtual course space. Asynchronous courses do not have required live, scheduled meetings online. However, students are expected to remain up to date with the deadlines and due dates provided by the instructor. These courses require high-speed Internet access and a computer.

6. Textbook

7. Course Components and Marking Scheme

a. Marks and passing conditions

The marking scheme is as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assignments (2× 15%)</td>
<td>30%</td>
</tr>
<tr>
<td>Midterm Exam</td>
<td>15%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>30%</td>
</tr>
<tr>
<td>Class activities</td>
<td>25%</td>
</tr>
</tbody>
</table>

Course Total 100%

In order to pass the course, your overall grade must be at least 50%. In addition, you must submit at least 3 course requirements (out of 2 assignments and 2 class activities) to pass the course.

As with any university-level course, it is imperative that you view all lectures if you wish to succeed. The course assessment consists of 2 assignments, 2 class activities, a midterm exam, and a final exam. In this section, I explain how each assessment component factors into your final grade.

b. Lectures

There are three hours of lectures per week. Please refer to Section 8 of this course outline for a detailed schedule of the delivery of the material, as well as for the content and textbook chapters covered every week. The textbook is an important tool to learn the scientific material. The book identifies the learning objectives, explains the fundamental concepts and contains several review problems.

Note that the first 10 lectures of PHYS 1901 and PHYS 1902 cover the same material. This is so that any student taking either of these courses can learn the basic laws of physics and astronomy. For students who choose to take both courses, PHYS 1901 and PHYS 1902 cover different topics starting with lecture 11.

c. Assignments (30%) and Class activities (25%)

There will be four written assignments to be completed outside of class. I encourage collaboration with your colleagues on the assignments but I stress that collaboration does not mean copying. Please familiarize yourself with Carleton University’s policies regarding plagiarism and academic honesty (you can find these policies in the Undergraduate Calendar and
in Section 8 of this course outline). I hope that you will find the assignments thought provoking and fun. Don’t worry if at times you get stuck – I will be more than willing to help. Remember, the process of getting unstuck is called learning.

The assignment schedule is as follows:

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Date Handed Out</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Friday, September 15</td>
<td>Sunday, October 12</td>
</tr>
<tr>
<td>Class Activity 1</td>
<td>Monday, October 2</td>
<td>Thursday, October 31</td>
</tr>
<tr>
<td>2</td>
<td>Monday, October 30</td>
<td>Monday, December 5</td>
</tr>
<tr>
<td>Class Activity 2</td>
<td>Wednesday, November 1</td>
<td>Wednesday, November 15</td>
</tr>
</tbody>
</table>

Assignment Submission Policy

- You must submit your assignments electronically in Brightspace, by uploading a file in PDF or Microsoft Word format. **Do not email your assignment to me or the TA.**

- **Assignments must be submitted no later than 11:59 p.m. Eastern Time on the above due dates.**

- Students are expected to complete all assignments and class activities within the time frames and by the dates indicated in this outline. Exemption or deferral of assignments and activities is only permitted for a medical or personal emergency or due to religious observance (request must be received within the first two weeks of the course). I (course instructor) must be notified by e-mail prior to the due date or as soon as possible after the date, and the appropriate documentation must be submitted. **Late submissions will be graded with a 10% per day penalty up to a maximum of 50%.**

d. Midterm Exam (15%)  
The midterm exam will be held on **Monday, November 6, 2023 at 6:00 p.m. – 7:30 p.m. Eastern Time**, and will take place online through Brightspace. The exam will be open-book and consist of multiple-choice questions. If you have a legitimate reason for missing the midterm exam, a deferred midterm exam may be scheduled for you. More details about the midterm exam will be announced at a later date.
e. Final Exam (30%)

The final examination will be held during the Fall exam period, December 10 – 22, 2023, and will take place online through Brightspace. The date and time of the exam are scheduled by the central University scheduling service and will be announced part of the way through the term. The final exam will be cumulative, open-book, and consist of multiple choice questions. More details about the exam will be announced at a later date.

f. Deferred Exams

If you miss the Final Exam for a valid reason such as illness, you may apply for a Deferred Exam through the registrar’s office. A Deferred Exam replaces only the Final Exam portion of your grade. Deferred Exams for Fall 2023 are scheduled during January 26–28 and February 3-5, 2024.

Students with significant incomplete term work, such that a failing grade would be awarded regardless of the final exam score, will not be permitted to write a deferred exam.

8. Lecture Schedule and Important Dates

</tr>
</tbody>
</table>
13 October 31 The Earth 7.1 – 7.5
14 November 2 The Moon 7.6, 8.1 – 8.9
15 November 7 Mercury, Venus 8.1 – 8.9, 9.1 – 9.4
- November 6 Midterm Exam, 6:00 p.m. – 7:30 p.m. -
16 November 9 Venus, Mars 9.5 – 9.6, 10.1 – 10.5
17 November 14 Mars, Jupiter 10.6 – 10.8, 11.1 – 11.2
18 November 16 Jupiter and its Moons 11.3 – 11.6
19 November 21 Saturn 12.1 – 12.5
20 November 23 Uranus and Neptune 13.1 – 13.6
21 November 28 Solar System Debris 14.1 – 14.4
22 November 30 Exoplanets 15.1 – 15.5
23 December 5 The Sun 16.1 – 16.7
Review 2 December 7 Course review, part 2 7 – 16
- December 10–22 Final examinations in fall term courses may be held. Examinations are normally held all seven days of the week. -
- January 26–28 and February 3–5, 2024 Fall term deferred examinations will be held -

9. University Policies

Grade Definition:

In accordance with the Carleton University Undergraduate Calendar Regulations, the letter grades assigned in this course will have the following percentage equivalents:

A+ = 90 – 100  B+ = 77 – 79  C+ = 67 – 69  D+ = 57 – 59
A = 85 – 89   B = 73 – 76   C = 63 – 66   D = 53 – 56
A− = 80 – 84  B− = 70 – 72  C− = 60 – 62  D− = 50 – 52
F = <50

WDN = Withdrawn from the course
ABS = Student absent from final exam
DEF = Deferred (see Section 4f above)
FND = Failed, no Deferred (student could not pass even with 100% on final exam)
Academic Regulations, Accommodations, Plagiarism, etc.:

University rules regarding registration, withdrawal, appealing marks, and most anything else you might need to know can be found on the university’s website, here: [http://calendar.carleton.ca/undergrad/regulations/academicregulationsoftheuniversity/](http://calendar.carleton.ca/undergrad/regulations/academicregulationsoftheuniversity/)

Academic Accommodations for Students with Disabilities:

The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. For more information visit: [https://carleton.ca/pmc/](https://carleton.ca/pmc/).

If you are already registered with the PMC, contact your PMC coordinator to send your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable).

*The deadline for contacting the Paul Menton Centre regarding accommodation for final exams for the Fall exam period is November 15, 2023.*

For Religious Obligations:

Students requesting academic accommodations on the basis of religious obligation should make a formal, written request to their instructors for alternate dates and/or means of satisfying academic requirements. Such requests should be made during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist, but no later than two weeks before the compulsory event.

Accommodation is to be worked out directly and on an individual basis between the student and the instructor(s) involved. Instructors will make accommodations in a way that avoids academic disadvantage to the student.

Students or instructors who have questions or want to confirm accommodation eligibility of a religious event or practice may refer to the Equity Services website for a list of holy days and Carleton’s Academic Accommodation policies, or may contact an Equity Services Advisor in the Equity Services Department for assistance. [https://carleton.ca/equity/focus/discrimination-harassment/religious-spiritual-observances/](https://carleton.ca/equity/focus/discrimination-harassment/religious-spiritual-observances/)

For Pregnancy:

Pregnant students requiring academic accommodations are encouraged to contact an Equity Advisor in Equity Services to complete a letter of accommodation. The student must then make an appointment to discuss her needs with the instructor at least two weeks prior to the first academic event in which it is anticipated the accommodation will be required. [https://carleton.ca/equity/contact/form-pregnancy-accommodation/](https://carleton.ca/equity/contact/form-pregnancy-accommodation/)
**Plagiarism:**

Plagiarism is the passing off of someone else’s work as your own and is a serious academic offence. For the details of what constitutes plagiarism, the potential penalties and the procedures refer to the section on Instructional Offences in the Undergraduate Calendar.

**What are the Penalties for Plagiarism?**

A student found to have plagiarized an assignment may be subject to one of several penalties including: expulsion; suspension from all studies at Carleton; suspension from full-time studies; and/or a reprimand; a refusal of permission to continue or to register in a specific degree program; academic probation; award of an FNS, Fail, or an ABS.

**What are the Procedures?**

1. All allegations of plagiarism are reported to the Dean of the Faculty of Science. Documentation is prepared by instructors and/or departmental chairs.
2. The Dean writes to the student and the University Ombudsperson about the alleged plagiarism.
3. The Dean reviews the allegation. If it is not resolved at this level then it is referred to a tribunal appointed by the Senate.

Students are expected to familiarize themselves with and follow the Carleton University Student Academic Integrity Policy (see [https://carleton.ca/registrar/academic-integrity/](https://carleton.ca/registrar/academic-integrity/)). The Policy is strictly enforced and is binding on all students. Plagiarism and cheating – presenting another’s ideas, arguments, words or images as your own, using unauthorized material, misrepresentation, fabricating or misrepresenting research data, unauthorized co-operation or collaboration or completing work for another student – weaken the quality of the undergraduate degree. Academic dishonesty in any form will not be tolerated. Students who infringe the Policy may be subject to one of several penalties including: expulsion; suspension from all studies at Carleton; suspension from full-time studies; a refusal of permission to continue or to register in a specific degree program; academic probation; or a grade of Failure in the course.

For any offences committed after January 6, 2020, minimum penalties for violations of the Academic Integrity Policy will be applied as follows:

- **First offence, first-year students (< 4.0 credits completed):** No credit for the assignment or activity in question, or a final grade reduction of one full letter grade (e.g., A- becomes B-, if reduction results in an F, so be it), whichever penalty is more severe.
- **First offence (everyone else):** F in the course
- **Second offence:** One-year suspension from program
- **Third offence:** Expulsion from the University

Note: these are minimum penalties. More severe penalties will be applied in cases of egregious offences (e.g., a first-year student accessing Brightspace from their phone during an exam will be given an F in the course; bribing a faculty member or a TA for a better grade would be grounds for suspension, etc.)
If you are unsure of the expectations regarding academic integrity (how to use and cite references, how much collaboration with lab- or classmates is appropriate), ASK your instructor or your TA. It is NEVER okay to upload assignments to online sites such as Chegg, CourseHero, OneClass, etc.

Failure to inform yourself of the expectations regarding academic integrity is not a valid excuse for violations of the policy.

**Assistance for Students:**
- Academic and Career Development Services: [https://carleton.ca/career/](https://carleton.ca/career/)
- Writing Services: [http://www.carleton.ca/csas/writing-services/](http://www.carleton.ca/csas/writing-services/)
- Peer Assisted Study Sessions (PASS): [https://carleton.ca/csas/group-support/pass/](https://carleton.ca/csas/group-support/pass/)
- Math Tutorial Centre: [https://carleton.ca/math/math-tutorial-centre/](https://carleton.ca/math/math-tutorial-centre/)
- Science Student Success Centre: [https://sssc.carleton.ca/](https://sssc.carleton.ca/)

**Important Information:**
- Student or professor materials created for this course (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the author(s). They are intended for personal use and may not be reproduced or redistributed without prior written consent of the author(s).

- Students must always retain a hard copy of all work that is submitted.

- Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by the instructor may be subject to revision. No grades are final until they have been approved by the Dean.

- Carleton University is committed to protecting the privacy of those who study or work here (currently and formerly). To that end, Carleton’s Privacy Office seeks to encourage the implementation of the privacy provisions of Ontario’s *Freedom of Information and Protection of Privacy Act* (FIPPA) within the university.

- In accordance with FIPPA, please ensure all communication with staff/faculty is via your Carleton email account. To get your Carleton Email you will need to activate your MyCarletonOne account through Carleton Central. Once you have activated your MyCarletonOne account, log into the MyCarleton Portal.
10. Important Dates

**FALL 2023**

<table>
<thead>
<tr>
<th>Date</th>
<th>Event</th>

<td>Fall break, no classes.</td>
</tr>
<tr>
<td>November 10</td>
<td>Last day to withdraw from fall term and fall/winter courses with a full fee adjustment. Withdrawals after this date will result in a permanent notation of WDN on the official transcript. Last day to request Formal Examination Accommodation Forms for December examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.</td>
</tr>
<tr>
<td>November 15</td>
<td>Last day for academic withdrawal from full fall and late fall courses.</td>
</tr>
<tr>
<td>November 24</td>
<td>Last day for summative tests or examinations - or for formative and/or practical tests or examinations totaling more than 15% of the final grade - before the official examinations period (see examinations regulations in the Academic Regulations of the University section of the Undergraduate Calendar/General Regulations of the Graduate Calendar).</td>
</tr>
</tbody>
</table>
December 1  
Last day for receipt of applications from potential Winter (February) graduates.

December 8  
Fall term ends.  
Last day of fall-term classes.  
Classes follow a Monday schedule.

Last day for take-home examinations to be assigned, with the exception of those conforming to the examinations regulations in the Academic Regulations of the University section of the Undergraduate Calendar/General Regulations of the Graduate Calendar.

Last day for handing in term work and the last day that can be specified by a course instructor as a due date for term work for fall term courses.

Last day for receipt of applications for undergraduate degree program transfers for winter term

December 10-22  
December exams: Final examinations for Fall courses, mid-terms for Fall/Winter courses. Exams are normally held all seven days of the week.

December 22  
All take-home examinations are due on this day, with the exception of those conforming to the examinations regulations in the Academic Regulations of the University section of the Undergraduate Calendar/General Regulations of the Graduate Calendar.

December 25  
– January 3  
University closed.
